

Microsoft Dynamics for the Hotel Industry
 One Solution, One Database, All Microsoft

Cenium Hotel Management Overview

The Hotel & Hospitality business is going through a period of rapid growth and considerable market consolidation. New properties are being brought on-stream, there are new entrants to the market, tough competition, huge pressure on margins, the internet has changed the way hotels do business, customer contact is vital, the front desk experience is critical in retaining the repetitive business traveler, ever more sophisticated loyalty schemes etc.

The need for a robust, Hotel Management System has never been greater. Cenium is unique and unmatched in many ways including:

- One complete software package covering the full set of Hotel Management requirements including Financials and EPOS.
- One Database (Microsoft SQL).
- Developed using Microsoft's Dynamics NAV Business Management technology.
- There are 400,000 Microsoft Dynamics NAV sites in the world.
- There are 5,000 Microsoft Dynamics NAV Resellers in the world.
- NAV is Microsoft's core Business Management Application, with a development budget of \$2 Billion.

- Over 200 customers and 20,000 rooms 'under Cenium system control.'
- Source code provided as standard.
- Standard, common user interface throughout.
- Award winning Financials.

Cenium Hotel Management

Cenium has great success in the Hotel and Hospitality marketplace.

- One complete software solution which is very scalable from single standalone hotels to large hotel chains.
- Easy to implement, one standard database, one user interface, one system.
- Local or hosted solutions.
- 24/7 support, either directly or via the network of Microsoft Partners.
- e-learning functionality to ease the implementation process.
- NAV is already localised for most national accounting and legal requirements.
- One Complete System that saves time and money.
- Maximises the use of internet/web, whether online booking of hotel portals/intranets. Hotel portals and intranets are made easy using standard Microsoft technology such as sharepoint.
- Cenium is probably the most comprehensive Hotel Management System the world has ever seen!
